Weekly SARS-CoV-2 Point-of-care (POC) Antibody Results for Florida
Data as of 06/04/2020 at 7:00 PM (report produced every Friday)

Data in this report are cumulative and not solely POC antibody tests performed this week. Data in this report are provisional and subject to change.

The Florida Department of Health is conducting qSARS-CoV-2 (virus that causes COVID-19) antibody testing at several State-run COVID-19 drive-through testing sites test for possible exposure to the virus. All data in this report are from State-operated drive-through testing sites performing POC antibody tests.

The CELLEX™ qSARS-CoV-2 rapid IgG/IgM antibody test is approved by the Federal Drug Administration under an Emergency Use Authorization and the test is designed to detect antibodies against the virus that causes COVID-19. A simple blood draw is used to obtain the sample for testing.
