Hospitalization counts include anyone who was hospitalized at some point during their illness. It does not reflect the number of people currently hospitalized.

Other race includes any person with a race of American Indian/Alaskan native, Asian, native Hawaiian/Pacific Islander, or other.

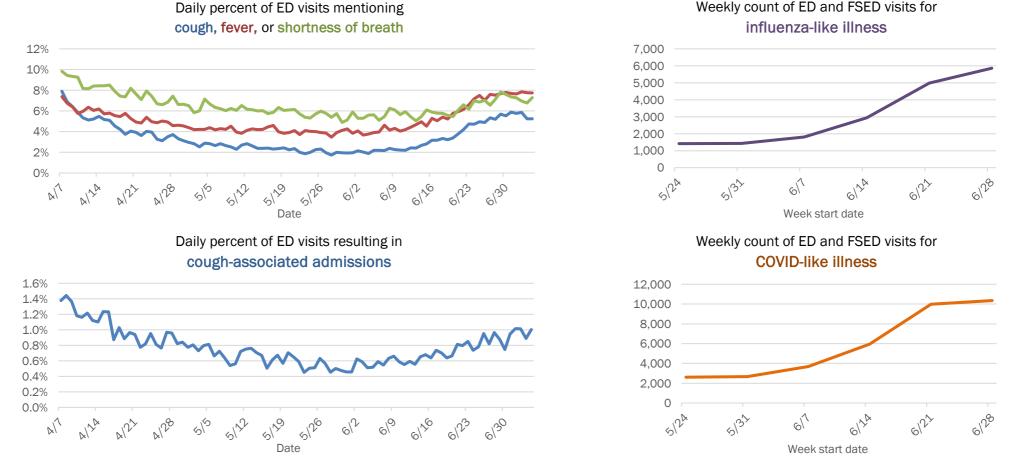

## Laboratory testing for Florida residents and non-Florida residents over the past 2 weeks

### Number and percent of positive labs

These counts include the number of people for whom the department received PCR or antigen laboratory results by day. This percent is the number of people who test positive for the first time divided by all the people tested that day, excluding people who have previously tested positive.

Total	48,423		4,146		1,051				

Hospitalization counts include anyone who was hospitalized at some point during their illness. It does not reflect the number of people currently hospitalized.

Other race includes any person with a race of American Indian/Alaskan native, Asian, native Hawaiian/Pacific Islander, or other.

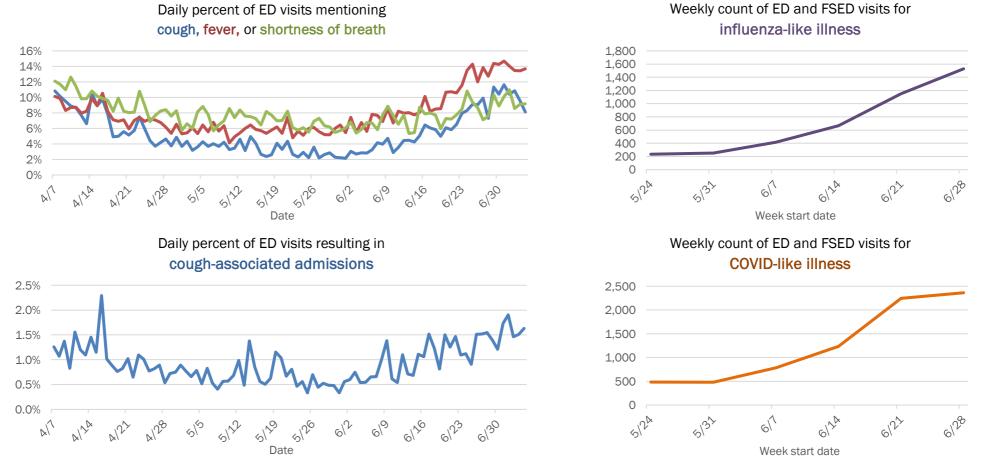

## Laboratory testing for Florida residents and non-Florida residents over the past 2 weeks

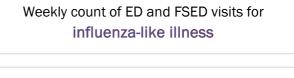

#### Number and percent of positive labs

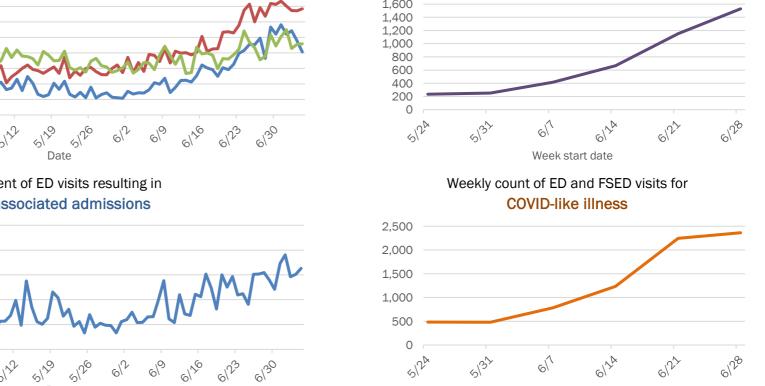

These counts include the number of people for whom the department received PCR or antigen laboratory results by day. This percent is the number of people who test positive for the first time divided by all the people tested that day, excluding people who have previously tested positive.

#### Emergency department (ED) and freestanding ED (FSED) chief complaint and admission data for Walton County

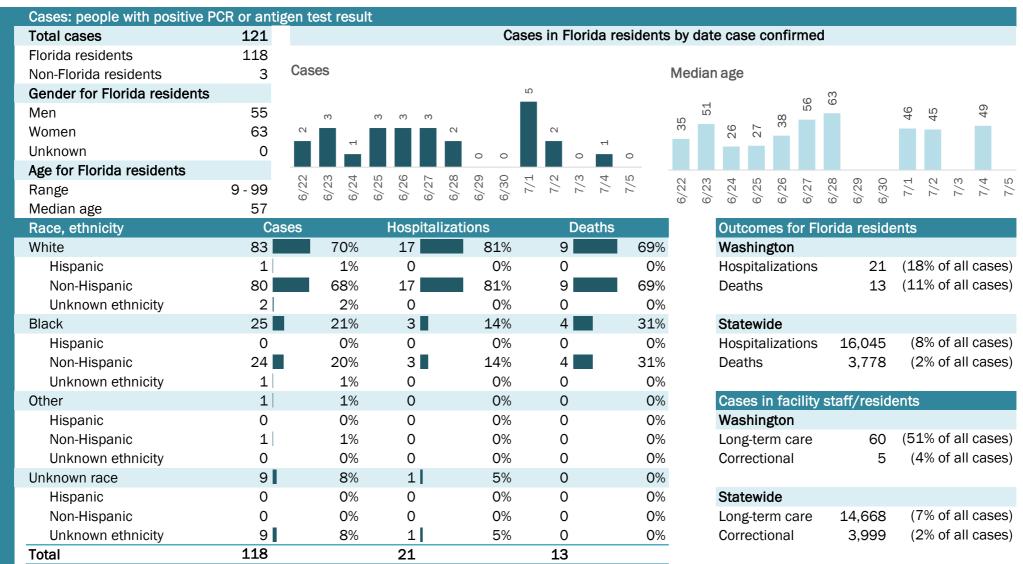

# **COVID-19: summary for Washington County**

Data through Jul 5, 2020 verified as of Jul 6, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

Hospitalization counts include anyone who was hospitalized at some point during their illness. It does not reflect the number of people currently hospitalized.

Other race includes any person with a race of American Indian/Alaskan native, Asian, native Hawaiian/Pacific Islander, or other.

## Laboratory testing for Florida residents and non-Florida residents over the past 2 weeks

#### Number and percent of positive labs

These counts include the number of people for whom the department received PCR or antigen laboratory results by day. This percent is the number of people who test positive for the first time divided by all the people tested that day, excluding people who have previously tested positive.
