

# COVID-19: summary of cases and monitoring

Data through Oct 26, 2020 verified as of Oct 27, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

Cases: people with positive PCR or antigen test result		Cases: people with positive PCR or antigen test result	
Total cases		Risk factors for Florida residents	
Florida residents	786,311	Traveled	6,916
Non-Florida residents	776,215	Contact with a known case	292,745
Type of testing		Traveled and contact with a known case	7,559
Florida residents	776,215	Neither	468,995
Positive by BPHL/CDC	28,321	No travel and no contact	103,395
Positive by commercial/hospital lab	747,894	Travel is unknown	253,041
PCR positive	745,829	Contact is unknown	202,924
Antigen positive	30,386	Contact is pending	142,062
Non-Florida residents	10,096	Travel can be unknown and contact can be unknown or pending for the same case, these numbers will sum to more than the "neither" total.	
Positive by BPHL/CDC	290		
Positive by commercial/hospital lab	9,806		
PCR positive	9,200		
Antigen positive	896		
Characteristics			
Florida residents hospitalized	48,512		
Florida resident deaths	16,505		
Non-Florida resident deaths	204		
Hospitalized counts include anyone who was hospitalized at some point during their illness. It does not reflect the number of people currently hospitalized.			
More information on deaths identified through death certificate data is available on the National Center for Health Statistics website at <a href="http://www.cdc.gov/nchs/nvss/vsrr/COVID19/index.htm">www.cdc.gov/nchs/nvss/vsrr/COVID19/index.htm</a> .			

# COVID-19: summary of laboratory testing

Data through Oct 26, 2020 verified as of Oct 27, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

## Cases in Florida residents per day for the past 2 weeks

Number of cases per day

Median age of cases by day

## Laboratory testing for Florida residents over the past 2 weeks

### Number of Florida residents tested per day

These counts include the number of people for whom the Department received PCR or antigen laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received.

### Number and percent of Florida residents with positive test results

The percent of positive results ranged from 4.64% to 8.02% over the past 2 weeks and was 7.78% yesterday.

These counts include the number of people for whom the Department received PCR or antigen laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received. If a person has a positive specimen and a negative specimen in the same day, only the positive result is counted.

### Percent positivity for new cases in Florida residents

The percent of positive results ranged from 3.65% to 6.72% over the past 2 weeks and was 6.31% yesterday.

This percent is the number of people who test PCR- or antigen-positive for the first time divided by all the people tested that day, excluding people who have previously tested positive.

# COVID-19: characteristics of 776,215 Florida resident cases

Data through Oct 26, 2020 verified as of Oct 27, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

# COVID-19: additional surveillance information

Data through Oct 26, 2020 verified as of Oct 27, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

## Statewide emergency department (ED) chief complaint and admission data

The Electronic Surveillance System for the Early Notification of Community-Based Epidemics (ESSENCE-FL) includes chief complaint data from 211 of 211 Florida EDs. Data are transmitted electronically to ESSENCE-FL daily or hourly.

# COVID-19: testing by laboratory

Data through Oct 26, 2020 verified as of Oct 27, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

# COVID-19: testing by laboratory

Data through Oct 26, 2020 verified as of Oct 27, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

# COVID-19: testing by laboratory

Data through Oct 26, 2020 verified as of Oct 27, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

# COVID-19: testing by laboratory

Data through Oct 26, 2020 verified as of Oct 27, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

# COVID-19: testing by laboratory

Data through Oct 26, 2020 verified as of Oct 27, 2020 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number of Florida and non-Florida residents for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**
