COVID-19: summary of laboratory testing

Data through Apr 26, 2021 verified as of Apr 27, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

Number and percent of Florida residents with positive test results

The percent of positive results ranged from 6.99% to 10.88% over the past 2 weeks and was 8.83% yesterday. These counts include the number of people for whom the Department received PCR or antigen laboratory results by day. People tested on multiple days will be included for each day a new result was received. A person is only counted once for each day they are tested, regardless of whether multiple specimens are tested or multiple results are received. If a person has a positive specimen and a negative specimen in the same day, only the positive result is counted.
