These data summarize the number of people who have received either their first dose or have completed the series for a COVID-19 vaccine. A person can only be counted in one category, first dose, series complete or additional dose. For persons receiving Moderna or Pfizer vaccines, once they receive their second dose, they are moved from the first dose column to the series completed column. Once a person receives their additional dose, they are moved from the series completed column to the additional dose column. Because of this, the total in each category may show a change from report to report not matching the totals from the previous week. Persons receiving Johnson & Johnson vaccines will always be counted in the series completed column.

**First dose:** current number of people who have only received their first dose of the Moderna or Pfizer vaccine.

**Series complete:** current number of people who have received both Moderna or Pfizer vaccine doses or one Johnson & Johnson dose and are considered fully immunized.

**Additional dose:** current number of people who have received an additional dose of Pfizer-BioNTech COVID-19 vaccine or Moderna COVID-19 vaccine. This dose is recommended for persons with moderately or severely compromised immune systems.
