

COVID-19 Weekly Situation Report: State Overview

Previous week (November 12, 2021 - November 18, 2021)

Published November 19, 2021

All data are provisional and subject to change. Data include only Florida residents.

Case data	Previous week	Cumulative
Total	10,828	3,677,968
New case positivity	2.5%	20.7%
Deaths	37	61,081

Vaccine data	Previous week (doses administered)	Cumulative (people vaccinated)
Total	394,524	14,180,980
First dose	109,494	1,836,172
Series completed	51,556	10,068,484
Additional or booster dose	233,474	2,276,324

See additional notes at the end of this report for information on positivity rate, deaths, and vaccination status.

Vaccine age groups	Population	Vaccinated
Total (5+)	20,807,254	68%
5-11	1,688,211	6%
12-19	1,972,084	56%
20-29	2,744,987	57%
30-39	2,784,698	66%
40-49	2,669,253	74%
50-59	2,925,172	79%
60-64	1,438,783	86%
65+	4,584,066	88%

New cases for the past 10 weeks

New case positivity for the past 10 weeks

Number of doses administered in the past 10 weeks

COVID-19 Weekly Situation Report: Vaccination Impact

Previous week (November 12, 2021 - November 18, 2021)

Cases and cumulative people vaccinated

Race and ethnicity are self-reported for vaccination and case data, resulting in classifications that may not align with population census estimates. This can result in the number of vaccinations appearing larger than the underlying population, particularly for "other" race.

COVID-19 Weekly Situation Report: Death Overview

Previous week (November 12, 2021 - November 18, 2021)

Deaths by week of death (61,081 deaths)

Summary of deaths by age group, gender, race, and ethnicity

Age group	Deaths	Cases	Case fatality rate	Mortality per 100,000 population

COVID-19 Weekly Situation Report: Data Notes

Previous week (November 12, 2021 - November 18, 2021)

General notes

All data are provisional and subject to change. All data exclude persons known to reside outside Florida.

Population data are based on the 2021 population estimates from Florida CHARTS: www.FLHealthCHARTS.com/FLQUERY_New/Population/Count.

Previous week runs from Friday through Thursday. Weekly reports are published on Fridays.

Case notes

Case and death counts include individuals who meet a standardized national surveillance case definition. For more information on Florida's surveillance case definitions, visit www.floridahealth.gov/diseases-and-conditions/disease-reporting-and-management/disease-reporting-and-surveillance/_documents/covid-19-case-definition.pdf.

Other race includes Asian, native Hawaiian/Pacific Islander, or other.

New case positivity

New case positivity, based on the number of people for whom the department received PCR or antigen laboratory results, is the number of people who test positive for the first time divided by all the people tested that week, excluding people who have previously tested positive.

Vaccination notes

Data in this summary pertain to COVID-19 vaccines approved by the U.S. Food and Drug Administration (FDA) or have been issued an Emergency Use Authorization (Janssen COVID-19 Vaccine, Moderna COVID-19 Vaccine and Pfizer-BioNTech COVID-19 Vaccine) by the FDA. These data summarize the number of people who have received either their first dose or have completed their primary series for a COVID-19 vaccine. A person can only be counted in one category, first dose, series complete or additional or booster dose. For persons receiving Moderna or Pfizer vaccines, once they receive their second dose, they are moved from the first dose column to the series completed column. Once a person receives their additional or booster dose, they are moved from the series completed column to the additional or booster dose column. Because of this, the total in each category may show a change from report to report not matching the totals from the previous week. Persons receiving Johnson & Johnson vaccines are not counted in the first dose category. The age group table displays the current percentage of people in an age group who have received at least one dose of the Moderna or Pfizer doses or one Johnson & Johnson dose. The total line is the current percentage of the eligible population (ages 5+).

Persons are considered vaccinated in this report if they have received at least the first dose of a two-dose series or one dose of a single-dose series.

First dose: current number of people who have only received their first dose of the Moderna or Pfizer vaccine.

Series complete: current number of people who have received both Moderna or Pfizer vaccine doses or one Johnson & Johnson dose and are considered to have their primary vaccination series completed.

Additional or booster dose: current number of people who received their additional dose of Pfizer or Moderna COVID-19 vaccine or their booster dose of Janssen COVID-19, Pfizer or Moderna COVID-19 vaccine following their primary vaccination series completion. Additional doses are indicated for individuals who may not build the same level of immunity to two-dose vaccine series compared to people who are not immunocompromised. Booster doses are recommended to counteract waning immunity.
