

COVID-19 Weekly Situation Report: State Overview

Previous week (September 16, 2022 - September 22, 2022)

Published September 23, 2022

All data are provisional and subject to change. Data include only Florida residents.

Case data	Previous week	Cumulative
Total	17,438	7,106,653
New case positivity	8.4%	28.9%
Deaths	62	81,139

Vaccine data	Previous week (doses administered)	Cumulative (people vaccinated)
Total	45,139	16,032,216
First dose	5,402	2,206,064
Series completed	4,352	7,812,897
Additional or booster dose	35,385	6,013,255

See additional notes at the end of this report for information on positivity rate, deaths, and vaccination status.

Vaccine age groups	Population	Vaccinated
Total (6+ months)	22,207,477	72%
6 months-4 years	1,049,999	2.5%
5-11 years	1,709,114	25%
12-19 years	1,982,626	64%
20-29 years	2,735,328	66%
30-39 years	2,857,581	73%
40-49 years	2,690,641	80%
50-59 years	2,944,284	84%
60-64 years	1,482,302	88%
65+ years	4,755,602	94%

New cases for the past 10 weeks

New case positivity for the past 10 weeks

Number of doses administered in the past 10 weeks

COVID-19 Weekly Situation Report: Vaccination Impact

Previous week (September 16, 2022 - September 22, 2022)

Cases and cumulative people vaccinated

Weekly case count Cumulative people vaccinated

All ages 6+ months

Ages 6 months to 4 years

Ages 5 to 11 years

Ages 12 to 19 years

COVID-19 Weekly Situation Report: Vaccination Impact

Previous week (September 16, 2022 - September 22, 2022)

Cases and cumulative people vaccinated

Weekly case count Cumulative people vaccinated

Ages 20 to 29 years

Ages 30 to 39 years

Ages 40 to 49 years

Ages 50 to 59 years

COVID-19 Weekly Situation Report: Vaccination Impact

Previous week (September 16, 2022 - September 22, 2022)

Cases and cumulative people vaccinated

Weekly case count Cumulative people vaccinated

Ages 60 to 64 years

Ages 65+ years

COVID-19 Weekly Situation Report: County Overview

Race and ethnicity are self-reported for vaccination and case data, resulting in classifications that may not align with population census estimates. This can result in the number of vaccinations appearing larger than the underlying population, particularly for "other" race.

COVID-19 Weekly Situation Report: Death Overview

Previous week (September 16, 2022 - September 22, 2022)

Previous week (September 16, 2022 - September 22, 2022)

General notes

All data are provisional and subject to change. All data exclude persons known to reside outside Florida.

Population data are based on the 2022 population estimates from Florida CHARTS:

www.FLHealthCHARTS.gov/FLQUERY_New/Population/Count. Estimates for <1 year old population are divided in half to separate the estimate for <6 month olds from the estimate for 6+ month olds.

Previous week runs from Friday through Thursday. Weekly reports are published on alternating Fridays.

Case notes

Case and death counts include individuals who meet a standardized national surveillance case definition. For more information on Florida's surveillance case definitions, visit www.floridahealth.gov/diseases-and-conditions/disease-reporting-and-management/disease-reporting-and-surveillance/_documents/covid-19-case-definition.pdf.

Other race includes Asian, native Hawaiian/Pacific Islander, or other.

Case fatality rate

Case fatality rate is the number of deaths among cases. All deaths occurred among cases included in the denominator.

New case positivity

New case positivity, based on the number of people for whom the department received PCR or antigen laboratory results, is the number of people who test positive for the first time divided by all the people tested that week, excluding people who have previously tested positive.

Vaccination notes

Data in this summary pertain to COVID-19 vaccines approved by the U.S. Food and Drug Administration (FDA) or have been issued an Emergency Use Authorization (Janssen COVID-19 Vaccine, Moderna COVID-19 Vaccine and Pfizer-BioNTech COVID-19 Vaccine) by the FDA. These data summarize the number of people who have received either their first dose or have completed their primary series for a COVID-19 vaccine. A person can only be counted in one category, first dose, series complete or additional or booster dose. For persons receiving Moderna or Pfizer vaccines, once they receive their second dose, they are moved from the first dose column to the series completed column. Once a person receives their additional or booster dose, they are moved from the series completed column to the additional or booster dose column. Because of this, the total in each category may show a change from report to report not matching the totals from the previous week. Persons receiving Johnson & Johnson vaccines are not counted in the first dose category. The age group table displays the current percentage of people in an age group who have received at least one dose of the Moderna or Pfizer doses or one Johnson & Johnson dose. The total line is the current percentage of the eligible population (ages 5+).

Persons are considered vaccinated in this report if they have received at least the first dose of a two-dose series or one dose of a single-dose series.

First dose: current number of people who have only received their first dose of the Moderna or Pfizer vaccine.

Series complete: current number of people who have received both Moderna or Pfizer vaccine doses or one Johnson & Johnson dose and are considered to have their primary vaccination series completed.

Additional or booster dose: current number of people who received their additional dose of Pfizer or Moderna COVID-19 vaccine or their booster dose of Janssen COVID-19, Pfizer or Moderna COVID-19 vaccine following their primary vaccination series completion. Additional doses are indicated for individuals who may not build the same level of immunity to two-dose vaccine series compared to people who are not immunocompromised. Booster doses are recommended to counteract waning immunity.
