# Weekly SARS-CoV-2 IgG and total antibody results for Florida

Data through Jan 7, 2021 verified as of Jan 8, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

The numbers in the table below represent the number for whom test results were received by the Department of Health. A person can be tested by more than one laboratory and can have both positive and negative results. **Therefore, the sum of the numbers in each column will be larger than the total number of people tested.**

# Weekly SARS-CoV-2 IgG and total antibody results for Florida

Data through Jan 7, 2021 verified as of Jan 8, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

Results are reported from commercial laboratory doing serologic testing for COVID-19 IgG or total antibody (IgM and IgG). The performance of the individual commercial laboratory tests used is not known.

**This table is the total number of people tested.** Persons who had more than one specimen tested will only appear once in this table. If a person had a positive result and a negative result, they will be counted as positive. People are only counted as inconclusive if they did not have a positive or negative result.
