#### Data through Mar 4, 2021 verified as of Mar 5, 2021 at 09:25 AM

Data in this report are provisional and subject to change.

Results are reported from commercial laboratory doing serologic testing for COVID-19 IgG or total antibody (IgM and IgG). The performance of the individual commercial laboratory tests used is not known.

This table is the total number of people tested. Persons who had more than one specimen tested will only appear once in this table. If a person had a positive result and a negative result, they will be counted as positive. People are ony counted as inconclusive if they did not have a positive or negative result.

County	Positive	Negative	Inconclusive	Total tested	Percent positivity
