COVID-19: Washington County vaccine summary

Vaccination data through Feb 24, 2021 as of Feb 25, 2021 at 12:05 AM

Data in this report are provisional and subject to change. Data are based on county of residence.

Data in this summary pertain to COVID-19 vaccines approved by the U.S. Food and Drug Administration and have been issued an Emergency Use Authorization. These data summarize the number of people who have received either their first dose or have completed the series for a COVID-19 vaccine. **A person can only be counted in one category, first dose or series complete. After individuals receive their second dose, they are moved from the first dose column to the series completed column. Because of this, the total first dose category may show a change from report to report not matching the total receiving their first dose from the previous day.**
