

# Keep Vaccine Between Your Baby & Disease

[www.ImmunizeFlorida.org](http://www.ImmunizeFlorida.org)

## VACCINES FROM BIRTH-AGE 18

**Protect your baby from disease.** Florida Health follows the recommendations and vaccine schedules of the Centers for Disease Control and Prevention (CDC): [www.cdc.gov/vaccines/schedules/easy-to-read/child](http://www.cdc.gov/vaccines/schedules/easy-to-read/child). If your child needs to be “caught up” on vaccines, or has not had any vaccines, make an appointment with your health care provider today.

AGE	VACCINE	Hib	<i>Haemophilus influenzae</i> Type B
Birth	Hep B	HepA	Hepatitis A
2 months	DTaP, Hep B, Hib, IPV, PCV, Rotavirus	HepB	Hepatitis B

2	VARICELLA				Other				
1	ROTAVIRUS				Other				
2	ROTAVIRUS				Other				
3	ROTAVIRUS				Other				

The top of this card can serve as  
**your child's vaccine record.**

Cut along the dashed line and fold in half along the dark blue line.

- Take this vaccine record to every appointment you have with your health care provider so it can be updated.
- Keep your vaccine record in a safe place.
- For detailed information on vaccines, visit [www.cdc.gov](http://www.cdc.gov).
- Learn more about vaccines in Florida, visit [www.ImmunizeFlorida.org](http://www.ImmunizeFlorida.org) or call 1-877-888-7468.
- Download "CDC Vaccine Schedules," free for iOS and Android devices.

**This card is not a complete medical guide for vaccines.  
Talk to your health care provider about age-appropriate vaccines  
based on your child's medical history.  
Or contact your local health office: [FloridaHealth.gov](http://FloridaHealth.gov).**
