

When it comes to flu season, vaccine & handwashing go hand-in-hand.

Talk to your health care provider about the flu vaccine and follow these steps:

- Wash your hands often with soap and water. If you don't have soap and water, use an alcohol-based hand sanitizer.
- Don't touch or shake hands with people who are sick.
- Clean and disinfect frequently touched surfaces.
- Cover your mouth and nose with a tissue when you cough or sneeze. If you don't have a tissue, cough or sneeze into your upper sleeve or elbow, not your hands.
- Stay home when you're sick.
