

# Think Zika

Florida Department of Health • FloridaHealth.gov

## 1. IDENTIFY

**Ask the patient about travel to areas with Zika virus activity.**

**Ask if the patient or fellow-travelers became ill while traveling or during the two weeks after return, and reported two of the following:**

- FEVER**
- RASH**
- JOINT PAIN**
- CONJUNCTIVITIS**

## 2. TEST

**Order a Zika virus test for a pregnant woman who has traveled during pregnancy. Consider an ultrasound to determine if microcephaly or intracranial calcifications are present in the fetus.**

**For all travelers with symptoms, immediately contact your county health department to request Zika virus testing.**

**Test for dengue and chikungunya if the patient or fellow-travelers reported fever.**

## 3. REPORT

**Report any suspect Zika, dengue or chikungunya cases to your county health department immediately to ensure appropriate confirmatory testing and mosquito control.**
